"Applied Network Research Workshop & Prizes" 2020
Prize delivery and Workshop

Adrian Perrig          Dan York          José Legatheaux

11 November 2020 - 14h30 - 18h00 Lisbon Time

Internet Security and Trust is of paramount importance for the use of the Internet. The workshop will address ways of addressing this requirement, including by the generalized adoption of security standards. Service providers and users have a key role in the adoption of these security standards.

**Open to the public but Registration Required**
**Zoom session** — attendees will receive the session link before the event takes place.
14h30 - 15h45 - **Prizes**  16h00 - 17h30 - **Workshop**
The session will be in English.  **Detailed program**
